From the Editor

Friends,

I welcome you to this special issue of this magazine issued in June 2011, which is issue 64 of this series. This issue is to give you some photos that show activities in which **MARL** participated. Thanks to all those who took part in these activities as well as to those who sent me the photos so that I can put them in this magazine.

I remind you that my new e-mail is 9h1avLaw at gmail dot com where the letter L can be small and not capital. As always, I hope that you find the information in the magazine useful to you and if you have some article please leave it in my **QSL** box or you can send it to me on my e-mail **9h1avLaw at gmail dot com**.

MARL Activities

This year like previous years **MARL** took part in Mtarfa Military Day where a number of members especially **Fortunato, 9H1ES** took ex-military equipment to communicate with other radio amateurs. One can see how well they were equipped from the photos that you have in this magazine.

All those who did not go to visit this activity should not miss the occasion to do so next year.

In the other photos there is a session of practical training made by **Fortunato 9H1ES** at Wied Rini following the lessons he had been giving at the **MARL** Centre on how to make antennas and safety due to radiation as well as practical lessons on the use other equipment by radio amateurs.

Thanks to **Fortunato** and to all those who are giving their help as well as to all those who are participating in every activity organized by **MARL**.

Next time we shall give you more photos of other activities organized by **MARL** or which **MARL** is participating in.
